

Designa ELEMENTS SOFTWARE – ADD-ON VALIDATION

Software ADD-ON for discounting with cost center extension

Increase the versatility and flexibility of your discounting with the ELEMENTS SOFTWARE ADD-ON VALIDATION.

This module allows you to allocate assigned discounts for transient tickets to different cost centers, such as stores in a shopping mall.

In this way, you can track both the number and the respective amount of discounts given by a business partner. The exact discount data can be displayed in reports for evaluation and billing.

FEATURES

- Cost center administration
- Assignment of individual users and assigned discounts to an unlimited number of cost centers
- Reporting of the respective discount allocation of individual cost centers

REPORTING

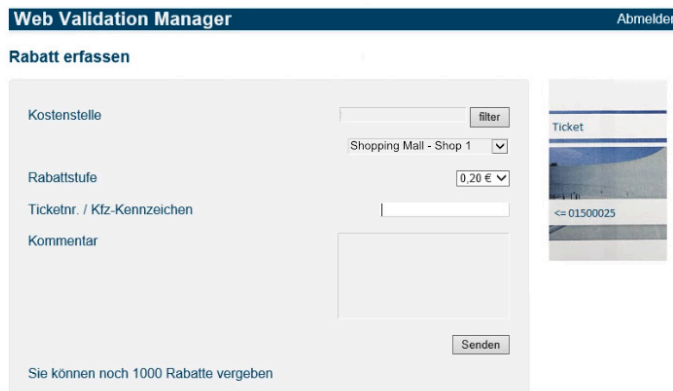

- Web-based detailed evaluation of discounts awarded per cost center and application
- Reporting with the exact presentation of granted discounts can be used for subsequent settlement with business partners can be used

DISCOUNT OPTIONS

Business partners have several tools at their disposal for the allocation of discounts:

- Web Validation Manager¹
- Couponoo/Couponing
- Chaser cards
- Physical Online/Offline Discount units

¹Application can only be used within the parking network
